A bill incorporating the Twelve Pole Bridge Company, in Wayne county, Adjourned until Monday next at 2 P. M.

The bonds of the Government could now be bought in by the Secretary of the Treasury, if he had the means, at at the rate of 72 cents per dollar in gold, or from 107 to 112 in currency. It seems superfluous to discuss the question whether we shall pay them in gold or greenbacks, when we might buy them at 28 per cent discount if we had the gold to buy them with, and from 7 to 12 per cent premium in currency, if we had the greenbacks to buy them with—the real trouble being that it is just as impossible for the Government to get the greenbacks to pay them with as to get the gold, if either are to be raised by taxation. If, however, the Democratic platform means that the Government is to issue new greenbacks in payment of the public debt, the question arises: Since the greenabcks are mere promises to pay, in what currency is the Government to redeem the greenbacks? If they are never to be redeemed at all, then why not save the needless expense of print-ing them by renuglation the whole never to be redeemed at all, then why not save the needless expense of printing them by repudiating the whole debt at once? If they are to be redeemed in gold, how much cheaper will it be to pay off the debt in greenbacks and redeem the greenbacks in gold, than to pay off the debt in gold without the interposition of the greenbacks?—N. THE Democratic platform propos that the credit of the Government shall be maintained inviolate, and that the Government's promises to pay shall be deliberately broken. But it does not tell us how these contradictory promises are to be reconciled.

He is the pride and ornament of the Empire State; he commenced life as a Democrat, and has never wavered in this advocacy of that political faith. In his private life there is no blemish, his morals are pure and his reputation is untarnished. The Commercial says: Mr. Seymour is not a liberal and progressive Democrat. He stands by the traditions of the party. He shares its predjudices. He sympathizes with every effort to continue a social caste created by slavery, and appeals to the antipathies of race solely for political ends. His partisan record will prevent the Republicans of the East from going over to the Democracy. His sympathizing with the bond-holdors will seriously affect his prospects in the West, and he will nowhere be able to poll more than a strictly party vote. He is a weak man for the Presidency, and ought easily to be beaten.

In other respects, also, it considers Seymour will make a far stronger President than Chase.

In the United States District Court yesterday the case of Frederick P. James et al. viz. the Milwaukee and Union Railroad Co., was decided. The case was a creditor's bill, filed by four different creditors, against the defendants to set aside as fraudulent, the verdict sgainst the creditors. The sale under the mortgage was made to Barnes on the Zist of June, 1856, for \$2,000,000 by the Lacrosse and Milwaukee Railroad Company, and which sale took place on the twenty-first f May, 1859, and under which the defendant's company was organized. The decision is that the company be perpetually enjoined and restrained from exercising any control of the property or franchise mentioned in the mortgage, or from interfering in any manner with the road or franchise; and further that said company be decreed to take nothing under the sale, and that the property and franchises of the La Crosse and Milwaukee Company may be sold and applied after discharging all prior liens to the satisfaction of the judgments of the company. The Court decided that the sale should be set aside and the Milwaukee and Minnescota Company be perpetually enjoined from setting up any right or title under the mortgage, and that the judgment creditors of the complainant be at liberty to enforce their judgment against the defendants therein subject to all prior liens to frequency.

cunning politician and is sufficiently unsorupulous for the demagogue course which is a necessity to a Democratic candidate. During the war he differed from his party in that he admitted the Constitutional power to put down secession and rebellion, but he counteracted this by such a course of partizan attacks on everything which the government did that he gave as much aid to the spirit of dissatisfaction in the North, and as much encouragement to the rebellion, as the others who dectared the national defense unconstitutional.

New York, July 10.—The Herald says the Democratic party, has decided that the next President shall be Grant. Seymour against Grant amounts to a Democratic party.

The Times says the Democratic ticket will not bring out even a full vote. It will disgust the new partizan element, and nothing but a series of miracles can save the party from defeat.

The Tribune, after recounting the former political course of Seymour, says: If this man can be chosen President over Grant, then the partiotic blood shed in the war was shed in vain.

The World says Seymour is the first sufficient guard for that purpose.

CALL OF THE HOUSE.

Mr. Gregory moved a call of the House, and said he thought a call very necessary at present. He was actuated by no sinister purpose, but thought it was better that a few should suffer than that the people at large should be injured by failure to complete the Code. There were but a few days remaining of the present session, and if it should fail to be extended the work upon the Code already done would go for nothing. The session failing to be extended—no Code completed—no Capital located, the State is a pecuniary loser to the amount of \$3,000 or more, and a stain put upon the Legislature of West Virginia which cannot be rubbed ont. The gentleman asked "What would our constituents say to us for spending their money and doing nothing?" Members should be present to continue the session and complete the work for which it was railed. If a call of the House was necessary, it would not do to put it off until the last day. That would be too late. The gentleman, therefore, insisted upon his motion. If the call was ordered now, the Sergeant at Arms would have time to bring in absent members; the session could be continued, and each member could go home without shame as a delegate of West Virginia.

The motion was opposed by various gentlemen and the House finally refused to agree to it.

CONTINUANCE OF THE SESSION.

Reports from Mississippi show that the State has been carried by the Democratic by a majority of about 7,000. The Constitution has been defeased, and hence the State will not come into the Union this summer.

The Democratic delegates from the Northwest all offered to give up their rooms to the nigger delegate from Tennessee. Fortunately, a room had been secured for him by the National Committees a month ago.
